

Deep Learning Approaches to Multivariate COVID-19 Forecasting: A UK Case Study

Michael Ajao-olarinoye

Abstract—This document describes the most common article elements and how to use the IEEEtran class with L^AT_EX to produce files that are suitable for submission to the IEEE. IEEEtran can produce conference, journal, and technical note (correspondence) papers with a suitable choice of class options.

Index Terms—Article submission, IEEE, IEEEtran, journal, L^AT_EX, paper, template, typesetting.

I. INTRODUCTION

THIS introduce your topic and the purpose of your paper.
